SUPPLEMENTAL RESPONSE TO RESTRICTION REQUIREMENT

ELECTION OF SPECIES

In response to the communication of August 24, 2006 notifying the applicant that the Response to the Restriction Requirement filed May 1, 2006 was not fully responsive for failing to elect a species of non-ribosomal peptide, Applicant herein elects, with traverse, vancomycin, compound **33**. The claims reading thereon being 27, 28 and 30-32. Specific examples of the use of vancomycin as a non-ribosomal peptide being glycosylated is found in the specification in Example 6 spanning pages 59-75. The election of species having now been made, Applicants respectfully request entry of the response to the Office Action previously filed May 1, 2006. Applicants submit, however, that the election is improper and should be withdrawn.
